

# ONE STOP SOLUTION FOR FABRICATION !

Designing, Fabrication, Powder Coating & Assembly...

'Harsiddh Industries' offers a one stop solution for Customized Designing, Laser Cutting, Sheet Metal Fabrication Services, Powder Coating & Assembly.

Company specializes in laser cutting & quick turn metal fabrication of flat, round and structural shapes in Mild Steel, Stainless Steel and Aluminium. With over 30 years experience in precision sheet metal work, we have in depth knowledge about laser cutting and metal fabrication. Besides laser profiling, we provide numerous inserting and studding equipments as well as MAGS & TAGS welding coupled with our own in house powder coating system. Under one roof, we provide you everything you need to manufacture your sheet metal products.

We have a expert team of professionals with high experience and dedication towards the company goals.

Our organization has established a strong foothold in the market due to our consistent quality and timely services due to the-state-of-the-art machinery & equipments.

As metal work and powder coating both are accomplished at our end, we have complete control over quality and delivery due to continued investment in high-tech sheet metal work equipments.

We have been providing superior products and outstanding customer services since 1988. We thrive on the challenges offered to us and constantly work to develop the most efficient and cost-effective solutions for our customers. That's why 'Harsiddh Industry' has become a leading manufacturing company in precious sheet metal component fabrication.

## OUR SERVICES

CNC laser cutting | CNC Plasma Cutting | CNC Bending | Sheet Metal Fabrication MS-SS  
Enclosure Fabrication | Machinery Part Fabrication | Heavy Base Fabrication | CNC Planning & Turning  
Welding Services-(Argon, Mig, Spot, Stud) | Powder Coating & Painting | Pu Gasketing | Assembly

### Laser Cutting

MAZAK Laser Cutting Machine with comprehensive software package for quality cutting of our own advanced production facilities.

Laser Cutting Machine Capacity:

- Table size (sheet size) – 3100 x 1550 (mm).
- SS (Nitrogen) Cutting – 10 mm Thickness.
- SS (Oxygen) Cutting – 14 mm Thickness.
- MS (Oxygen) Cutting – 22 mm Thickness.
- Acrylic – 50 mm
- Aluminium (Alloy) – 5 mm.

### CNC Plasma Cutting

CNC Plasma Cutting Capacity :

Koike Japan Make

Table Size: - 7000 X 2500

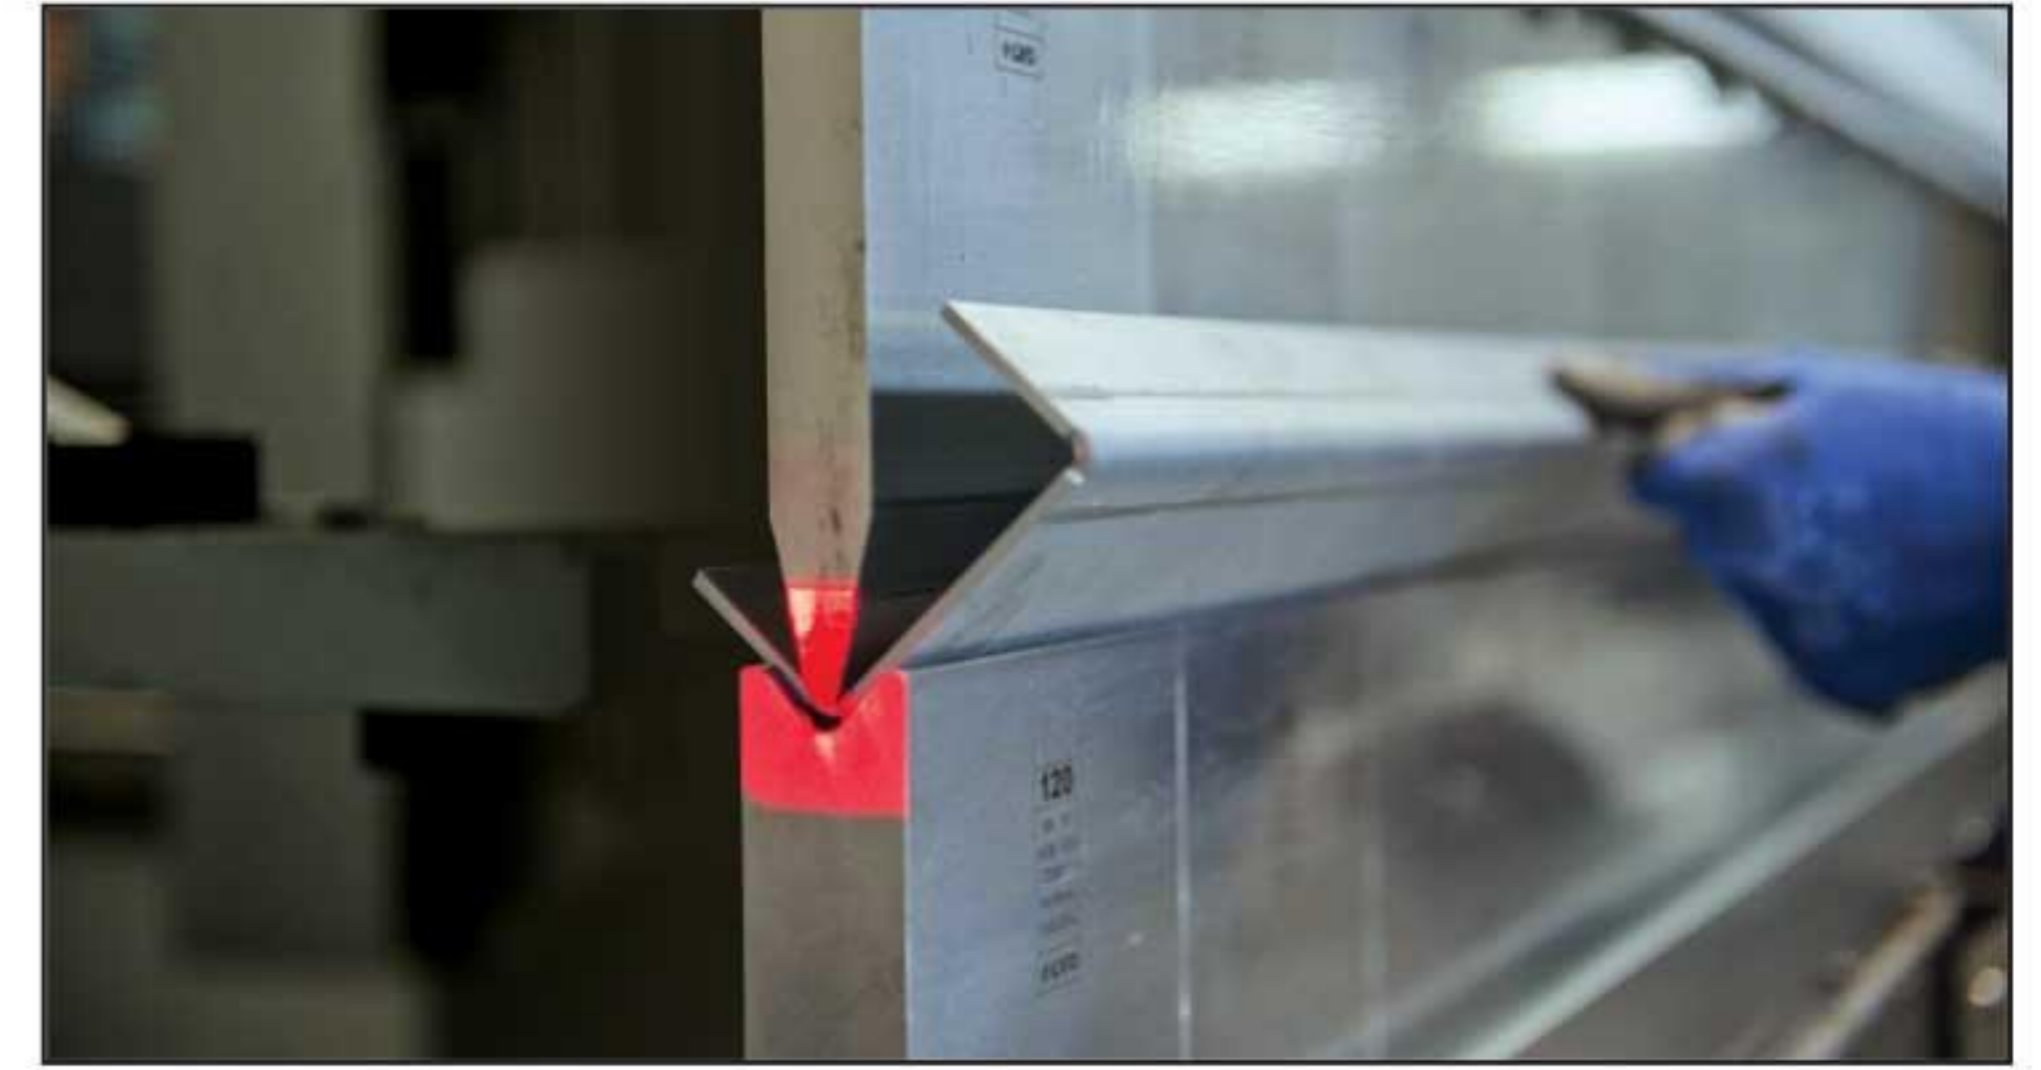

It can cut = MS 40 mm, SS 30 mm

## CNC Bending Services

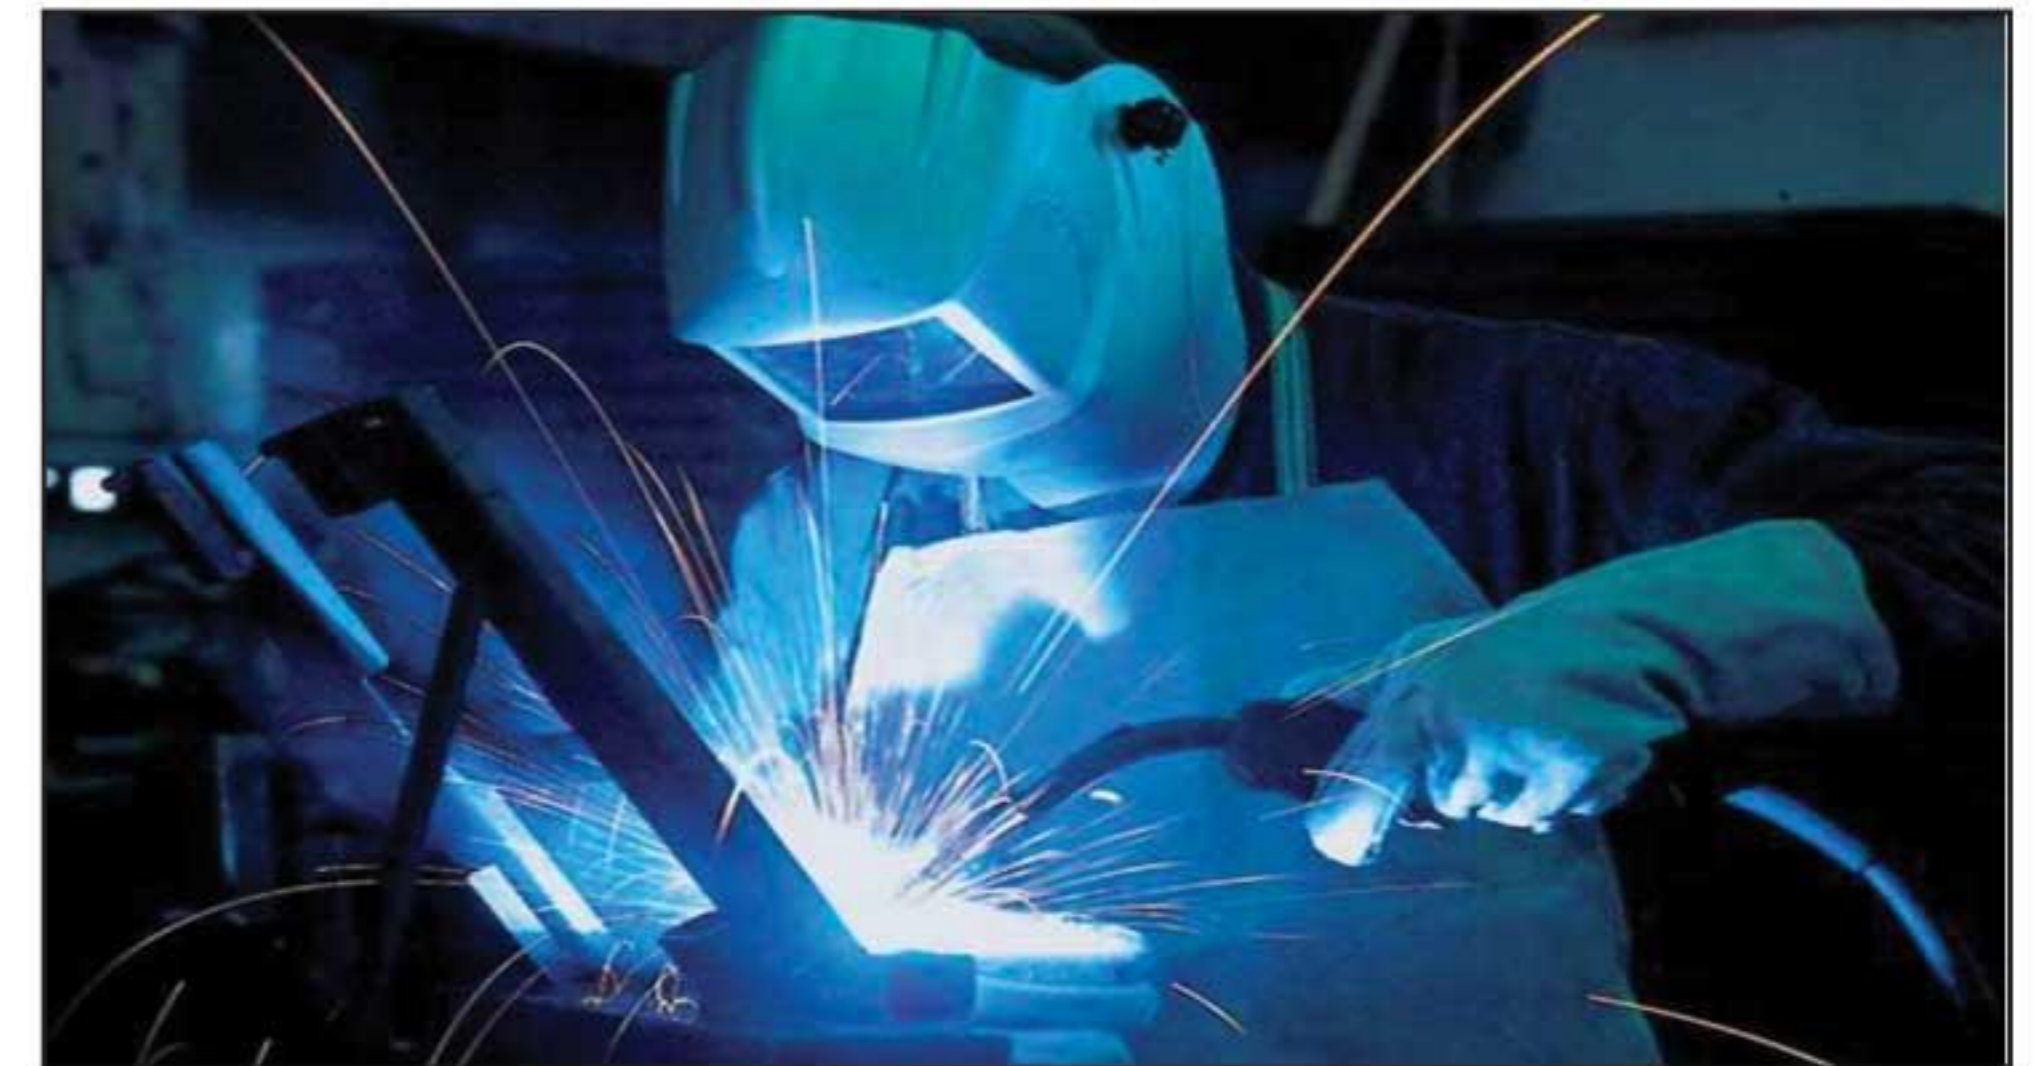

We are manufacture and exporters of various types of CNC bending parts and component as per the customer drawings and with custom design.

CNC Bending Machine Capacity : 5 Axis 800 ton 8000mm Length  
: 5 Axis 160 ton 4200mm Length  
: 5 Axis 100 ton 3000mm Length  
: 5 Axis 50 ton 1500mm Length

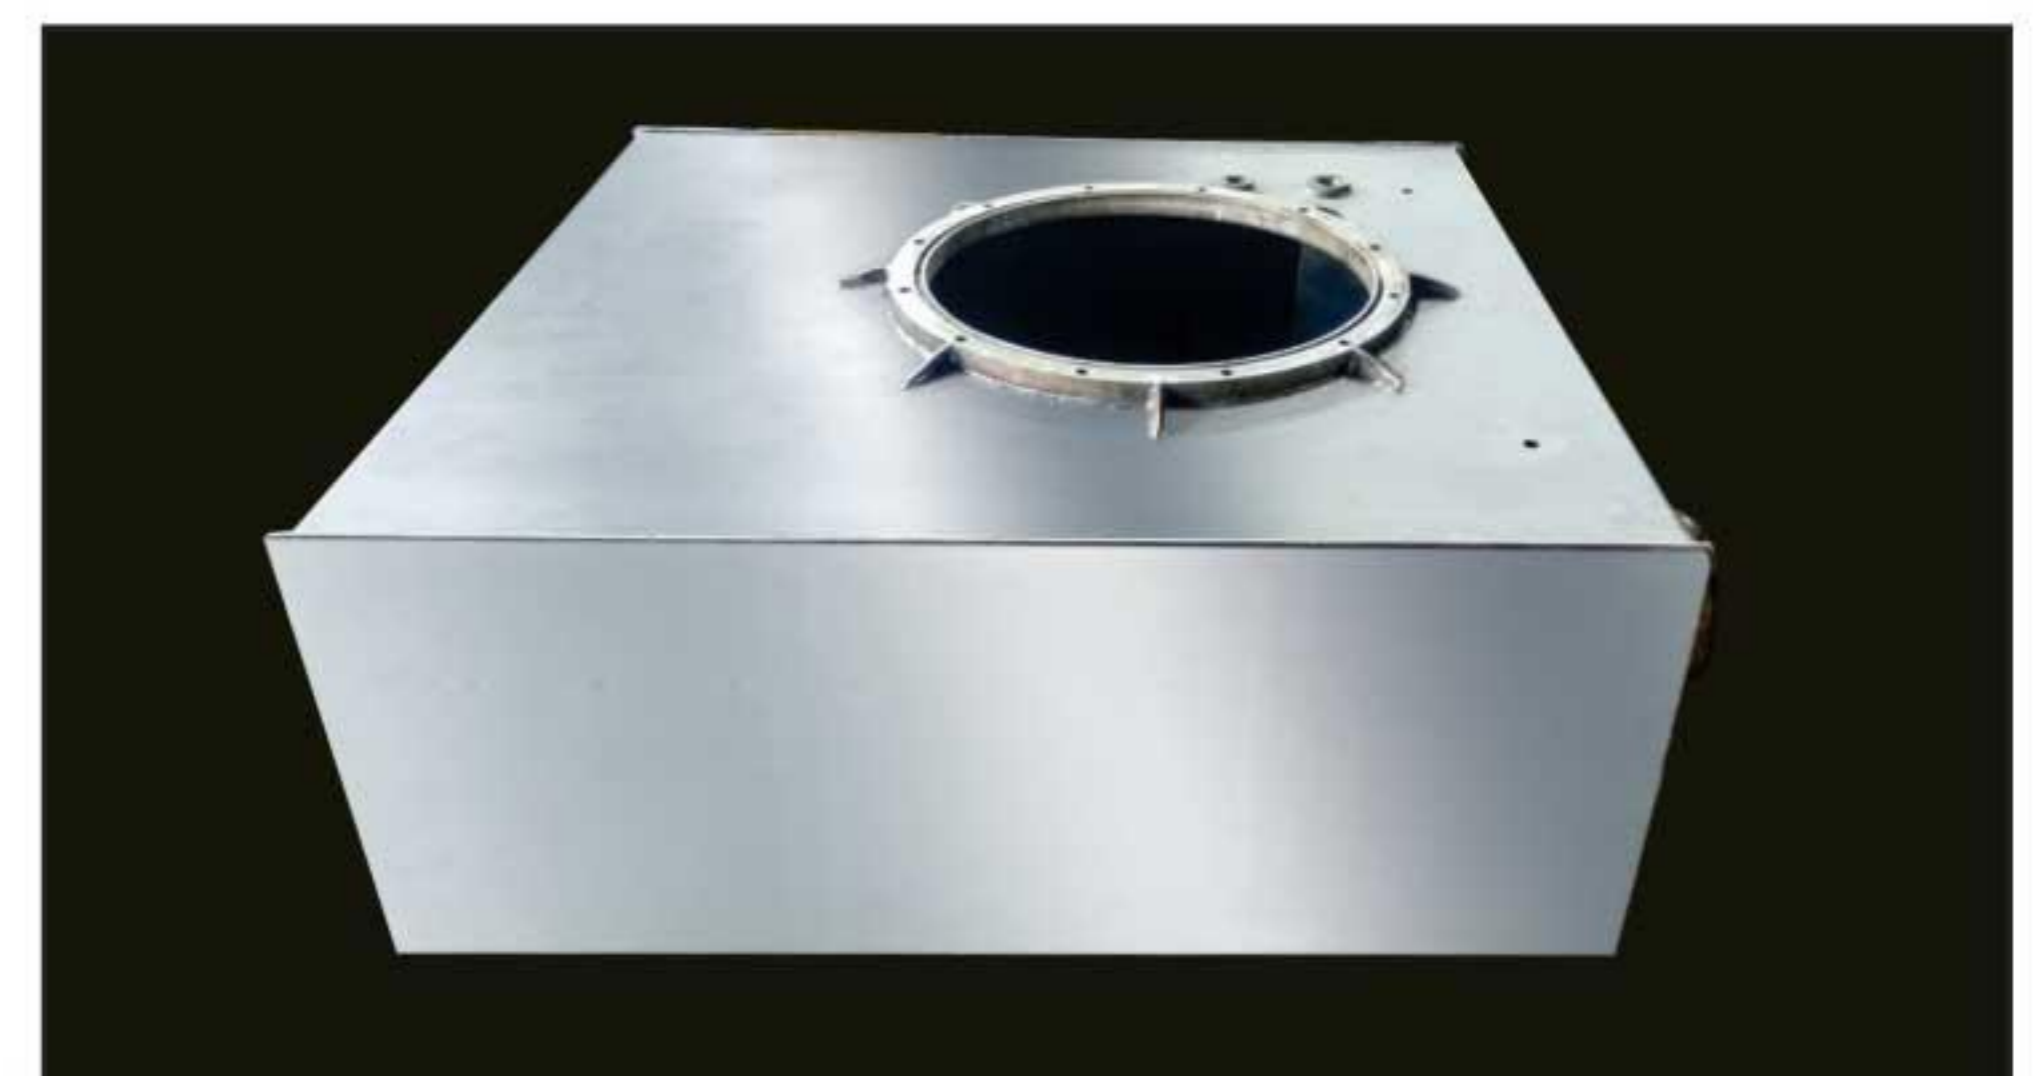

## Welding Services ( Sheet Metal Fabrication MS-SS )

Argon Welding, Mig Welding, Spot Welding and Stud Welding.

## Heavy Fabrication

Oil Tank and Base, Frame of Injection Molding Machines.

## CNC Plano miller & Turning

Table Size :- 12000 x 2000 x 1200 mm

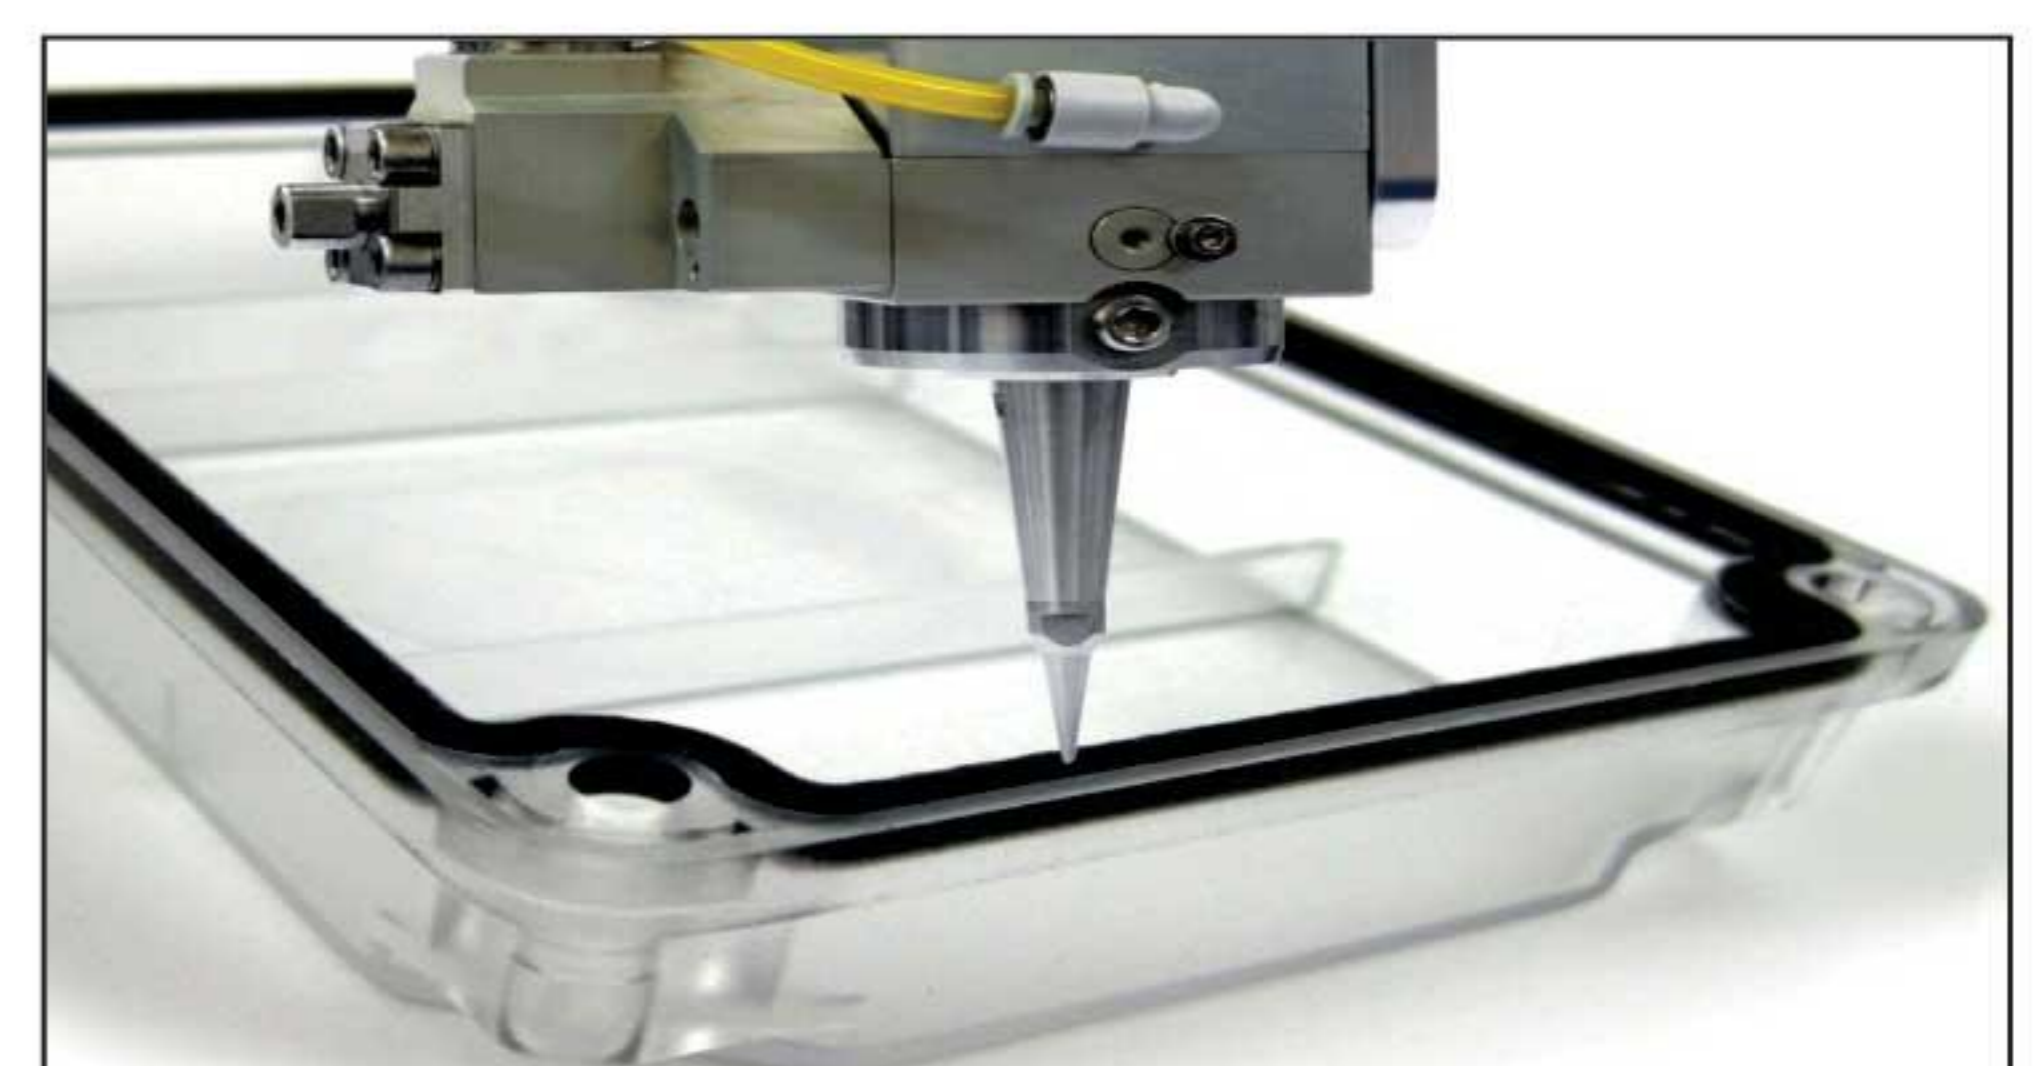

## Powder Coating & Painting

Oven Size: - 20ft x 8 Ft x 8 Ft  
9 Tank Process  
Tank Size: - 2500 x 1250 x 1250mm

## PU Gasketing

Table Size: 1220 x 2440  
Gasket Size: 6mm to 38mm

## Application Areas

### Sheet Metal Fabrication

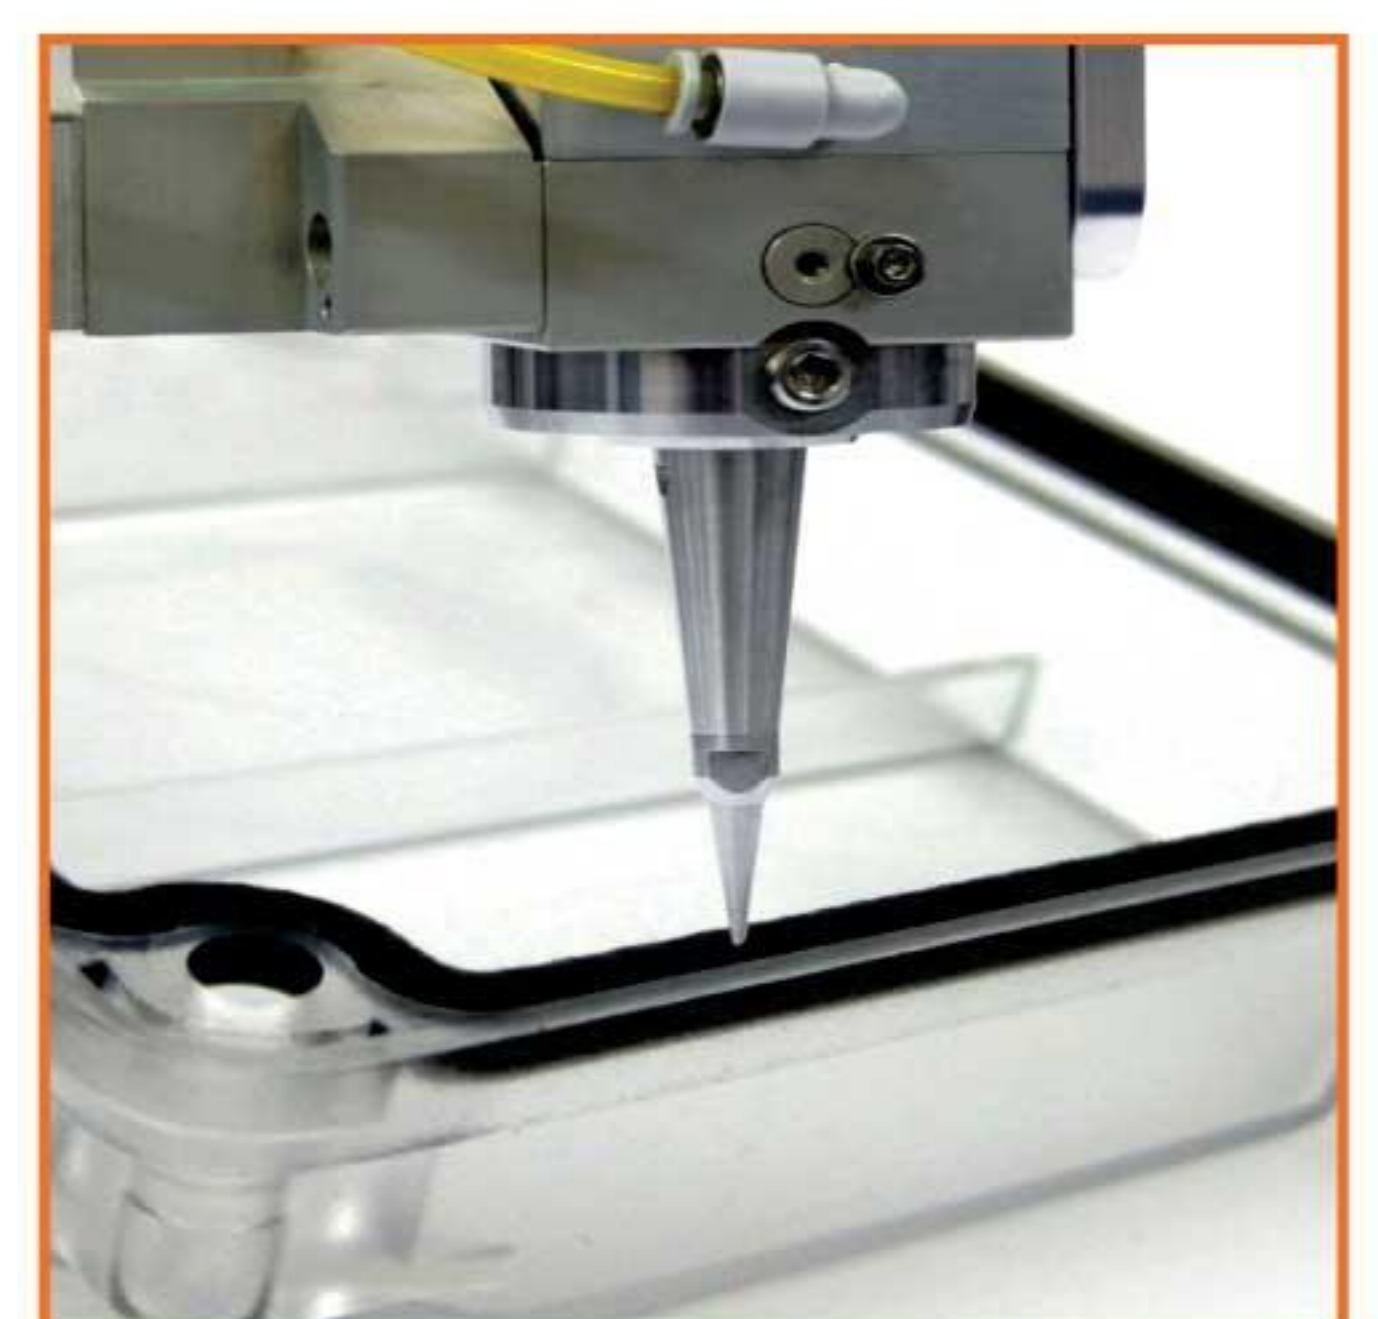

As an expert manufacturer in sheet metal fabrication processing industry, we fabricate products like processing machinery parts, hoppers, chemical tank, heavy duty enclosure, FMCG machinery part (carrier plate), control panel, tool box, metal frame, bus shelter, road construction machinery parts, advertising display and all type of sheet metal machinery parts.

### Enclosure Fabrication

Control Panel Boards, Computer Body, Electrical Enclosure, Searches related to enclosure fabrication, stainless steel enclosures, electronic enclosures.

### Machinery Part Fabrication

Hopper Fabrication, Machine Base Plate Fabrication, Sheet Metal Duct Parts fabrication, Elbow Parts fabrication, Machine door frame and gate, Cable Tray Manufacturing, Conveyor Parts and Carrier Plates for FMCG industries, Textile Machinery, Industrial tanks fabrication for chemical plant, plastic processing machines, petrochemical plants, pharmaceutical machinery and engineering products manufacturer.
